MISSION VISION

To be the pioneer and trusted pest management company in the United Arab Emirates.

Why Do You Need Pest Control ?

The answer is simple **PESTS CAN RUIN YOUR BUSINESS** without effective control, pests have the potential to :

- Increase contamination and spread disease
- Cause damage to property and stock
- Destroy your reputation
- Complete and immediate closure of premises and
- Fine of up to several thousands and face legal consequences.

The **success** of VR Pest Control lies in its dedicated team of professional and enterprising employees of various nationalities.

Risk Associated With Some Common Pest

Sl.No.	Type of Pests	What to avoid?
1	Roaches	Food poisoning, tapeworm etc.
2	Bed Bugs	Allergic reactions, inflammation
3	House Flies	Fever, dysentery, cholera etc.
4	Mosquitoes	Malaria, dengue etc.
5	Ants	Swelling, irritation, pain itching etc.
6	Rodents	Plague, rat bite fever etc.

How we manage PEST:

Our certified pest control team is trained to survey and identify pest activity in and around the facility using our **S.T.A.R.** approach to pest management.

S = Survey

Carryout survey of the facility for pest activity and pest entry points

T = Target

Customize a targeted treatment solution to meet pest control needs

A = Analyze

Analyze the outcome of the treatment and take corrective action if required.

R = Report

Report finding back to the client in an effort to prevent future infestations.

With our **S.T.A.R.** system of pest management we develop a targeted plan of action to control the pest with eco-effective treatment options and techniques.
